

## PAS68 Static Bollards EAG07000

### Product Summary

Eagle Automation has a comprehensive range of PAS68 tested static bollards including the worlds first surface mount bollard, ultra-shallow foundation bollards, a shallow foundation single unit bollard and mid depth foundation bollards. We also offer a range of different diameters with many of our bollards having removable options. This includes:

### Model EAG070-20SH

A zero penetration super slim shallow foundation bollard with a 159mm diameter tested with the N1 3.5 tonne vehicle at 48kph.

Diameter: 159mm

Vehicle: 3.5 tonne (N1)

Impact Speed: 48kph (30mph)

Penetration: P1

## PAS68 Static Bollards EAG07000

### **Model EAG070-30SM**

The worlds first surface mounted bolt down bollard tested with the N2 7.5 ton vehicle at 48kph. This can be bolted to existing concrete bases and suspended slabs.

Diameter: 219mm

Vehicle: 7.5T tonne (N2)

Impact Speed: 48kph (30mph)

Penetration: P2

### **Model EAG070-30SH**

This shallow foundation bollard has been nicknamed "bollard in a box" as this is one of the first bollards on the market that is supplied complete with integral re-bar. It was also the first shallow static bollard to be tested as a single unit with single foundation. This bollard was tested with the N2 7.5 ton vehicle at 48kph.

Diameter: 219mm

Vehicle: 7.5T tonne (N2)

Impact Speed: 48kph (30mph)

Penetration: 1.1m

### **Model EAG070-30ST**

With options for both a 193mm and 219mm bollard, these have been tested with the N2 7.5ton vehicle at 48kph.

Diameter: 193mm/219mm

Vehicle: 7.5T tonne (N2)

Impact Speed: 48kph (30mph)

Penetration: P1

### **Model EAG070-40SH**

This is our super shallow foundation bollard requiring just 125mm depth. A 219mm or 273mm bollard can be used with this product. It has been tested with the N2 7.5ton vehicle at 64kph.

Diameter: 219mm/273mm

Vehicle: 7.5T tonne (N2)

Impact Speed: 64kph (40mph)

Penetration: P2

### **Model EAG070-40ST**

## PAS68 Static Bollards EAG07000

With options for both a 219mm and 273mm bollard, these have been tested with the N2 7.5ton vehicle at 64kph.  
Diameter: 219mm/273mm  
Vehicle: 7.5T tonne (N2)  
Impact Speed: 64kph (40mph)  
Penetration: From zero

### **Model EAG070-50ST**

This bollard has a diameter of 273mm and has been tested with both the N2 and N3 7.5ton vehicle at 80kph.  
Diameter: 273mm  
Vehicle: 7.5T tonne (N2 and N3)  
Impact Speed: 80kph (50mph)  
Penetration: From zero
