

Eagle is a market leader in the supply, installation and design of PAS 68 gates, bollards and blockers. Eagle also design and manufacture a comprehensive range of LPS1175 Turnstiles for the security sector. Built on a 25 year reputation of providing unique solutions for automated gate industry the company has successfully installed and maintained security solutions for Power Stations, Police, Banks, Hospitals, Schools and Councils.

The Eagle security rated turnstile has also been tested to LPS1175 issue 8

Designed as a single up to SR4 and double to SR3

The turnstile can be constructed in sections allowing the system to be easily shipped and assembled on site.

In-house design team with CAD technology can develop a system bespoke to your requirements.

Wylie Advanced Type 430A-200 Single Full Height Security Turnstile

CPNI®
Centre for the Protection
of National Infrastructure
*Approved for UK Government use,
for details contact CPNI*

The Wylie Advanced Type 430A-200 Single Full Height Security Turnstile has been tested and approved for UK Government use. The tool category is for deliberate forced entry of well protected premises using bodily physical force and a wide selection of attack options. The turnstile is designed to be surface mounted for rapid deployment.

Key Features

- 90° Locking head mechanism, electrically released in both directions
- Rotor sensing relays to provide a voltage free contact following the rotation of the rotor in either direction
- Status light LED panels to indicate when to proceed
- 240V AC mains supply 2 amp
- Fail locked on power failure
- Walkway canopy with down light
- Side panels clad in galvanised weld mesh (this is see through for CCTV)
- Bolts directly onto concrete base
- Finish powder coated standard RAL colour
- Can be assembled on site, if delivered flat pack
